SECTION 6. How to win: A prize winner in the scratch-off game number 872 is determined by removing the scratch-off material from the play area revealing a total of nine (9) play and prize spots. This includes four (4) play spots containing one (1) pair of play symbols in the corresponding area labeled "HAND 1", "HAND 2", "HAND 3", and "HAND 4", one (1) play spot containing one (1) play symbol located in the area labeled "DEALER'S TOTAL", and four (4) prize spots with one (1) prize symbol each corresponding with the above specified four (4) hands. Neither the retailer validation code (or any portion thereof), the pack-ticket number (or any portion thereof), nor the validation number (or any portion thereof) are play symbols or prize symbols and are not usable or playable as such. A winner is determined by adding the total of the value of the two (2) symbols in each "HAND" and comparing that total with the number located in the area labeled "DEALER'S TOTAL". If any one (1) hand beats the total of the "DEALER'S TOTAL", the ticket holder is entitled to win the prize shown for that hand. This process is repeated for each of the four (4) hands. If the total of the two (2) cards of any one (1) hand adds up to a total of twenty-one (21), the ticket holder is entitled to win triple the prize indicated for that hand. Face cards are valued at ten (10) and aces are valued at eleven (11). All others are valued at the number of the face.
